JUIDCO Ltd.

## List of NS items for Small Manual Scientific Slaughtering Unit at different ULBs of JHARKHAND

S.No	ITEM OF WORK	Unit	Rate/Unit
1	Supplying and fabricating stunning box of size 2.50m x 1.25m x 2.00m made up of S.S. Plate having 10mm thick angle, hinges etc. used in Small Manual Scientific Slaughtering Unit	Number	
2	Supplying and testing captive Bolt pistol/ captive power bolt and electric stunner of different specification used in Small Manual Scientific Slaughtering Unit .	Number	
3	Continuous rail system with ISMB 250 with supporting structure and its fabrication, bending etc. in large animal slaughter hall for the continuous movement of electric hoist, including fabrication, erection, testing commissioning of rail system extra fitting epoxy painting etc. as per design for Small Manual Scientific Slaughtering Unit	meter	
4	Supplying and erecting electric hoist indef / brandy / morris or equivalent having ISI certification and having 1 tonne capacity, 4 way moving facilities with electrical motor 1.5 HP, fixed type wire rope hoist with fitting rope 18mm gauge and hooks with forged steel and locking arrangement including electrification of continuous rail with 3 phase electrical supply through base conductor (copper) sliding contractors, control switch cable etc. (for large animal slaughter hall)	Each	
5	Supplying and erecting manual operating moving hoist having ISI certification or Indef / Brandy, one tonne capacity, 4 wheel type traveling trolley, cast steel IS:1030 wheel material , lifting chain 5m length made up of stainless steel and locking arrangement free, friction type brake, metal body with anticorrosive powder coated finish of hoist body etc. items for Small Manual Scientific Slaughtering Unit	Each	
6	Supplying best quality stainless steel blood collection funnel as per IS : 316 with top diameter 100 cm slant and bottom diameter 30 cm suited to a 15 ltr capacity round vessel with 3 mm thick ss sheet fitted in SS moving trolley etc, items for Small Manual Scientific Slaughtering Unit .	Each	
7	Supplying and installation of stainless steel chute as per I.S. 316 conical/U type and cutting / rolling and welding etc. for stripery (waste collection chute) in Small Manual Scientific Slaughtering Unit	Each	
8	Supplying stainless steel shackles and SS chain 304 grade / metal coated anti corrosive material, for large animals having capacity of one tonne load including rolling mechanism (trolley) vertical and horizontal movement in the over head I-Section having a welded section SS chain of length 100 cm for large animal slaughter hall for the Small Manual Scientific Slaughtering Unit	Each	
9	GI pipe of size 100 mm diameter for small animal slaughter hall of different thickness used in Small Manual Scientific Slaughtering Unit	meter	
10	Supplying and fixing hook with ring of 120 mm inner diameter made from 25mm diameter SS rod attached with welded SS chain of length 50 cm and one side sharpened hook for Small Manual Scientific Slaughtering Unit .	Each	

S.No	ITEM OF WORK	Unit	Rate/Unit
11	Supplying stainless steel wheel barrow as per IS: 2062, 2 wheeled, single axle with a frame of top side 20 mm diameter SS pipe, bottom and vertical corner 20 mm x 20mm of 3 mm thick SS angle, 75 mm x 200 mm TOT wheel with MS axle for the Small Manual Scientific Slaughtering Unit	Each	
12	Supplying silink made with 10 mm diameter, 90 cm long GI wire rope both side bend with brazing etc. complete for tying leg of animal for hanging in the raig in the Small Manual Scientific Slaughtering Unit	Each	
13	Supplying 1000 litre capacity solar water heater as per approved quality of ANERT or equivalent of different specification suitable for Small Manual Scientific Slaughtering Unit	Each	
14	Supplying high pressure water jet cleaner having 200 kpa pressure with necessary pipe, valve, hose, nozzle etc for floor washing of Small Manual Scientific Slaughtering Unit	Each	
15	Supplying high pressure water jet cleaner having 1000 kpa pressure with necessary pipe, valve, hose, nozzle etc for floor washing of Small Manual Scientific Slaughtering Unit	Each	
16	Supplying and installation of 30 KVA 415volts (3-Phase)generator set with accessories and generator room as per PCB norms for the Small Manual Scientific Slaughtering Unit	Each	
17	Supplying 25mm diameter stainless steel rod square 250mm x 15mm suitable for ISMB 250 with welded ring and with sharp hooks at one end for haning rails as directed by ste indented for despatch/ inspection section in the Small Manual Scientific Slaughtering Unit	Each	
18	Blood processing facilities in Small Manual Scientific Slaughtering Unit		
(a)	Blood storage vessel having capacity of 300 literes made with SS: 304 grade sheet	Each	
(b)	Supplying circular vessel as per IS:304 grade stainless steel having a capacity of 100 litres and base diameter of 40cm burner stove for LPG as guel etc complete.	Set	
(c)	Supplying two single burner stove with biogas as fuel best quality etc complete	Set	
(d)	Providing and fabricating exhaust hood and vent with 1 mm thick GI sheet and pipe etc for disposal of water vapour/ funnel during the blood dewatering process.	Each	
19	Supplying stainless steel knives best of various sizes and specifications and quality for cutting carcasses in the Small Manual Scientific Slaughtering Unit .	Number	
20	Supplying aluminium ladder with platform of different specifications for the Small Manual Scientific Slaughtering Unit	Each	
21	Supply of Refrigeration systems with PUF panels and Doors, Refrigeration accessories with Controls for freezer rooms- 1 nos. of different technical specifications suitable for Small Manual Scientific Slaughtering Unit.	Each	
22	Sintex plastic water tank, 5000 litre capacity	Each
